PETITION TO THE HOUSE OF COMMONS ON THE ROOT CAUSES OF FORCED MIGRATION

WE, the undersigned, residents of Canada, wish to draw the attention of the House of Commons to the following:

THAT every minute, 31 people are forced to leave their homes. The majority of them live in the poorest countries in the world under extremely difficult conditions. Armed conflict, climate change, development megaprojects, persecution… The causes of forced displacement are multiple, interwoven and complex.

THAT without inclusive and participatory democracies that respect human rights, forced migration will only increase.

THEREFORE, your petitioners respectfully ask that the Government of Canada and the House of Commons do more to address the root causes of forced migration. In addition to providing humanitarian aid for refugees and their host countries, we are asking you to:

- Support grassroots organizations working for peace, democracy and human rights.
- Invest more in diplomatic and peaceful solutions to armed conflicts.

No one should be forced to flee their home.
