

WATER: A CONNECTING ELEMENT

OBJECTIVE // To map out the ecological links between water and the rest of creation

TIME // 10-20 minutes

GROUP SIZE // 10-25

MATERIALS // 1 ball of yarn

ACTIVITY GUIDE

1. Have participants form a circle.
2. Ask everyone to name a part of creation (camel, butterfly, banana leaf, etc.). Arrange for four people to name water in one of its forms (rain, snow, river, ocean, etc.).
3. Give the ball of yarn to one person. The person with the yarn has to name how the part of creation they picked is connected to another part of creation named and throw the ball of yarn to that person while holding onto the end of the yarn.
4. Play continues until a web of yarn linking all parts of creation has been formed.
